

New York Stock Market

New York, May 26.—Disappointment was the portion to-day of that element on the Stock Exchange which had looked for a resumption of last Saturday's strong and active market.

Various conditions and developments were offered in explanation of to-day's movement. One was the absence of any news in connection with the United States-Southern Pacific dissolution proceedings, although the chief executive of the first named system was in conference during the day with the Attorney-General at Washington.

Another deterrent factor was found in the projected decision of the United States Supreme Court, whose deliberations continued long after the market closed.

There was some disposition to pay more than paring heed to a speech delivered last Saturday by a group of bankers in the Middle West by a representative of an influential local banking institution, in which a distinct note of caution was sounded.

London's operations were negligible, purchases of Union Pacific and other railings being nullified by sales of Canadian Pacific and industrials.

Features of the bond market included another low record for St. Louis and San Francisco 5s and heavy dealings in Atchison convertibles, United States 2s advanced 1-2, and Panama 3s coupon declined 1-8 on call.

DISAPPOINTMENT IN STOCK MARKET

Wall Street Had Expected Court Decision in Minnesota Rate Case.

New York, May 26.—Wall Street felt disappointed today that no decision was rendered in the Minnesota rate case.

Speculation hinges almost entirely on this decision, and as the day wore on without any news from Washington, the market developed a sagging tendency.
